Skilled and organized professional seeking a position where I can utilize my wide-ranging technical skillset to help companies thrive in the digital landscape. With a strong background in frontend development and a keen eye for design, I bring a holistic approach to managing online platforms and ensuring they align with the company's branding and objectives.

Carney

June 2021 - Present

Development Manager

- Led and managed a team of four frontend developers to successfully deliver projects on time and budget
- Collaborated with client and internal stakeholders to gather project requirements, provide technical guidance, and address any challenges or concerns
- Helped to define new workflows and project management systems within the agency to streamline our design and development processes

Frontend/UI Developer

- Developed a variety of custom Wordpress themes using Gutenberg blocks and integrated various popular plugins such as Advanced Custom Field, WooCommerce, The Events Calendar Pro, Elementor, and more
- Maintained 15+ Wordpress sites monthly for routine content and marketing needs, plugin updates, and security patches
- Coordinated deployments with our internal teams and clients, including server setup and DNS updates

UI Developer/Consultant, CGI Inc.

November 2019 - June 2021

Accessibility Strategist for Food Ordering Application

- Created a strategic approach to remediating accessibility issues using a theme-based methodology which prioritized defects based on the potential impact to end-users and ensured the approach adhered to WCAG 2.1 AA guidelines
- Worked with the QA and development teams to provide requirements, assess user impact, and review test cases

UI/UX Designer and Developer for a Company Intranet

- Integral part of the sprint-planning process to ensure all frontend assets (HTML, CSS, and JavaScript) were delivered on time for the development team to begin integration into SharePoint 2019
- Led design discussions and presented design work to senior leadership for review and feedback

UI Developer for a Company-wide Questionnaire

- Developed a platform-agnostic pattern library (from Figma designs) which contained utility classes as well as ready-made components for integration into an Angular application, including WCAG 2.1 AA adherence and IE11 compatibility

UI Developer, Brunner

July 2016 - November 2019

- Lead UI developer in a fast-paced agency environment working on digital products supporting our clients' business initiatives such as 84 Lumber's 2017 Super Bowl ad, Shaw Flooring's launch of their newest brand, Anderson Tuftex, and The Home Depot's acquisition of Compact Power Rental
- Experience in various technologies and concepts, including HTML5, CSS3 (LESS/SASS), Bootstrap, presentational JavaScript/jQuery, C#, ASP.NET MVC, Jekyll, Eleventy, Team Foundation Server, and Git

Freelance (UX, UI, Graphic Design, Wordpress development)

September 2009 - Present

First Place Team, Steel City Codefest

Winter 2015

Senior Graphic Designer, K&L Gates LLP

September 2013 - July 2016

Graphic Designer, PNC Financial Services Group (via Adecco Staffing)

January 2013 - September 2013

Graphic and Web Designer, Spindle Publishing Company, Inc.

January 2010 - June 2012

Slippery Rock University of Pennsylvania, B.S. Communication, Summa Cum Laude

August 2006 - May 2010
